

Loyalty Kiosk

Foyer and countertop design

SUZOHAPP's Loyalty Kiosk is available in two configurations: a free-standing cabinet for foyer use, or a countertop for bar or counter use with an external ticket printer. SUZOHAPP's kiosks use only industrial quality components to ensure longevity and maximum return on investment. Both platforms benefit from using the same LCD touchscreen, logic and card reader and the printers use the same drivers to simplify application development and support.

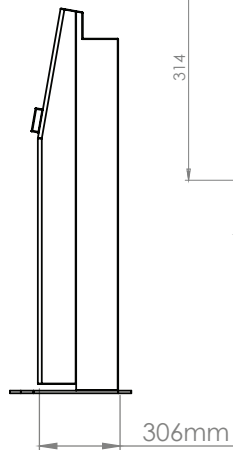

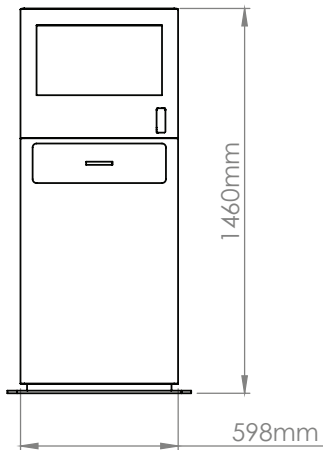

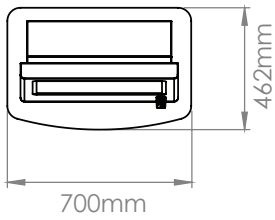

Highlights

- Slim, contemporary design
- Integrated with a number of Loyalty system providers and POS companies
- Foyer Kiosk can be supplied with a full printed wrap, allowing customisation of your kiosk and loyalty rewards theme
- Future peripheral expansion is simplified by the removable panel

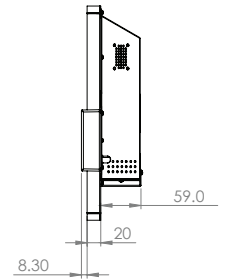

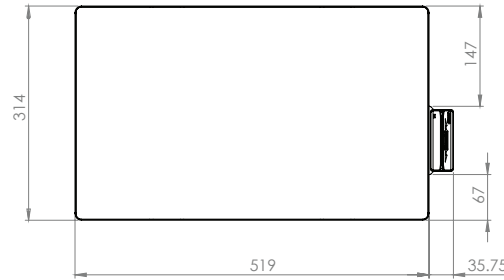

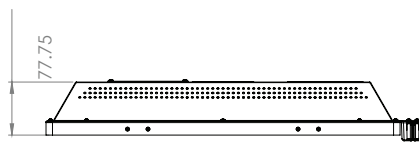

Technical Schematics
